Terrible plus after doors have closed it still looks like they are open.. My 3 year old daughter loves this game. She has beat it twice now.. "No downloadable content available" - Crapcom strikes again.. 30 hours of fun for \u20ac3,99. Ain't not that bad. Great puzzle game, working fine on win7 and no bugs detected!!!. I really love the new helos, side missions and the advanced flight model :)

Steering a helicopter feels like a totally new game right now and the training courses offer a good possibility to get in touch with the new content.

The Karts DLC is a nice "gag" and offers quite some fun when running for the fastest lap ;-)

I m really looking forward to the second part being released with the Marksmen DLC!

In Addition:

Great opportunity to support the devs keeping their work up and the player base together, because everyone can play the content (but not steer the Helos themselves which is only capable for DLC-owners).. Disharmony is an excellent expansion pack to a fantastic game that adds a lot of things that were missing from the base game, the one problem I have with Disharmony is the Harmony themselves, they aren't properly balanced with the other races and tend to be drastically weaker than everyone else.

i love this game idc if im a boy playing it cause its awesome. my favorite is belle. Like a few of the other reviewers have said, this is the first time I've purchased an addon at full price. Well worth it: the amount of detail here is extreme, and all of the west suburban downtowns are lovingly crafted, especially Naperville and Downers Grove.

If you're familiar with the BNSF/Metra, this is a must-have. Period.. If you're on Windows 10 and the game crashes as soon as it starts: For me, it was due to the engine not supporting 1440p. I changed my desktop resolution to 1080p and it runs just fine.

The Ball is a fun puzzler game that's not too difficult. It would basically be a casual game if it were not for the introduction of enemies about an hour in. Combat is honestly the games weakest point. I'm not even sure if the combat was needed. It does give a nice change of pace from the light puzzle solving, but the mechanic's not fleshed out enough to make it worth it.

But I digress... The game is good. I had a fun time playing it. Would definitely recommend!. I'm not even sure, where to start with this.

This game feels like an alpha version with bugs everywhere. It isn't even flagged early access.

I played like 50 minutes and didn't even finish act 1 because I got stuck the second time. Later, i watched a gameplay-video on youtube, only to realize: there is nothing more to this game.

It literally ends after act 1.

Act 2 is called a "free dlc" coming in winter.

This is when i uninstalled the game and asked for a refund.

Usually it costs 10\$, but even the 5\$ i paid on wintersale are to much for an unfinished game with this little content. . Having a lot of fun with my GF on Local Coop. It's just like playing Hotline Miami, but it adds a great deal of RPG elements. Me like it.
